EDUCATION

Master of Computer Applications, Amity University Jharkhand — **Expected 2026**
CGPA: **8.83/10**

Bachelor of Computer Applications, Vinoba Bhave University — July 2021 – May 2024
CGPA: **8.19/10**

SKILLS

Languages	Java, Python, JavaScript, SQL
Backend	Node.js, Express.js, REST APIs
Frontend	React.js, HTML, CSS
Databases	MySQL, MongoDB, ChromaDB
Tools	Git, GitHub, Postman, Ollama
Core	Data Structures & Algorithms, OOP, Database Systems

EXPERIENCE

Quality Analyst and SEO Optimizer Intern — Jan 2026 – Apr 2026
D'Notes — *Ranchi, Jharkhand*

- Automated QA validation and SEO workflows using Python, improving testing efficiency and platform stability.
- Optimized content-ranking workflows and website architecture, increasing organic search visibility by **25%**.

Web Development Intern — May 2025 – Jul 2025
Codsoft — *Remote*

- Developed responsive React.js interfaces and reusable UI components, achieving **100% cross-browser compatibility** across tested environments.
- Collaborated on component-driven architecture, reducing duplicate UI code and improving development speed for new features.

MERN Stack Development Intern — Apr 2024 – May 2024
Briztech Infosystems — *Remote*

- Developed MERN applications and optimized Express.js endpoints and MongoDB schemas to reduce API response latency and improve backend performance.
- Integrated Redux for centralized state management, improving consistency of frontend data flow across components.

PROJECTS

CampScout AI-Powered Platform | *Node.js, Express.js, MongoDB, Passport.js, NLP*

- Built and deployed a full-stack campground platform with **6 core capabilities**: authentication, listings, reviews, maps, cloud image storage, and recommendations.
- Implemented a custom **TF-IDF** recommendation engine and integrated **3 services**—Passport.js, MapTiler, and Cloudinary—for authentication, mapping, and image management.

Intelligent Enterprise Knowledge Assistant (IEKA) | *Python, RAG, LangChain, ChromaDB, Ollama*

- Built a **5-stage** local RAG pipeline for document ingestion, chunking, embeddings, vector retrieval, and response generation.
- Implemented semantic retrieval with **LangChain + ChromaDB** and local LLM inference using **Ollama**, eliminating external API dependency.
